# Quick User Guide

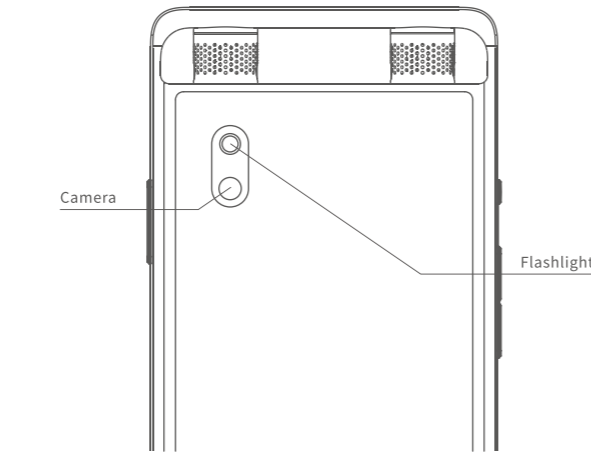

## Product Overview

### Front View

## Product Overview

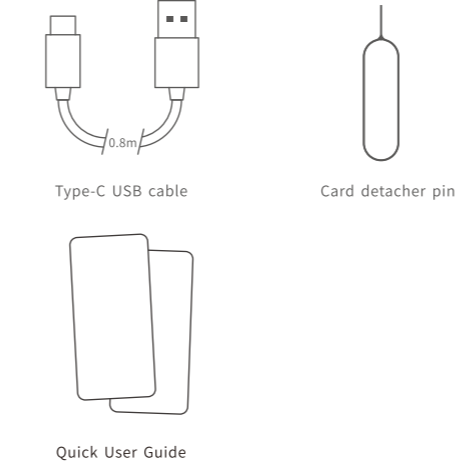

### Back View

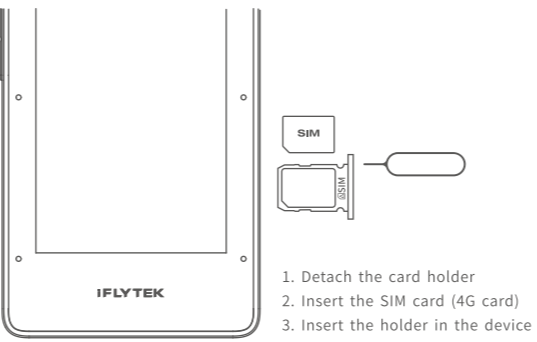

## Product configurations

Processor: 4 cores  
Screen: 3.5-inch  
Storage: 32GB  
Microphone: 2+6  
Camera: 8 million pixels  
Battery: 2500mAh  
Network: 4G/WLAN/BT  
Body material: metal/glass  
Manufacturer: DanuTech Europe Kft.  
Manufacturer's address: 1112 Budapest, Gulyas utca 24.1, Hungary

## Product accessories

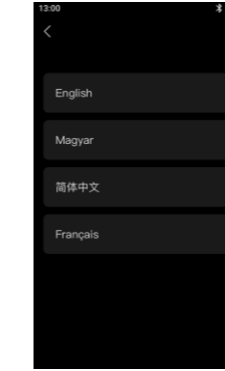

## SIM card settings

## Boot

Long press the on/off key to start the machine and enter the boot mode.

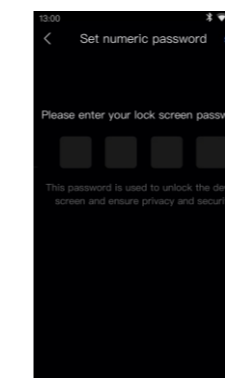

### 1. Select the system language

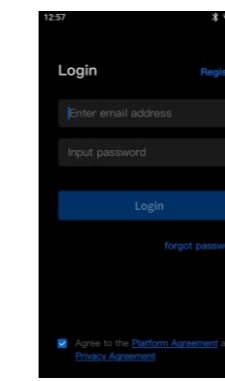

### 2. Set up the network

### 3. Set the screen lock password

### 4. Account registration/login

## Disclaimer

The user understands and agrees that DanuTech Europe Kft. shall not be responsible for any service interruption or developer losses caused by any of the following circumstances:

1. In the event of force majeure.
2. In the event of hacker attacks, computer virus invasion or attacks.
3. If computer systems are damaged, paralyzed, or unable to function properly.
4. In the event of technical adjustments by the telecommunications provider.
5. In the event of temporary shutdown due to government regulations.
6. Other malfunctions not caused by the fault of DanuTech Europe Kft.

7. DanuTech Europe Kft. and users shall be jointly responsible for software security and normal service. DanuTech Europe Kft. will take necessary technical measures in a reasonable and deliberative manner to protect users' terminal information and data security in accordance with industry standards, but users acknowledge and agree that DanuTech Europe Kft. cannot provide any guarantee in this regard.

8. DanuTech Europe Kft. may only process the user's recording in accordance with the User Agreements, Privacy Notice and other laws and regulations. Such process shall not promise or guarantee whether the recording itself or other content in the recording violates laws and regulations or infringes on the rights of third parties. If the user's recording itself or other content in the recording violates laws and regulations or infringes on the rights of third parties, the user shall bear all responsibilities independently. If any losses are caused to DanuTech Europe Kft. as a result, full compensation shall be undertaken by the user.

9. This software may use third-party software or technology (including open source code and public domain code that may be used in this software, similarly hereinafter), and such use has been legally authorized. If this software uses third-party software or technology, DanuTech Europe Kft. will display the relevant agreements or other documents in accordance with relevant regulations or agreements, which may be expressed in the form of "Software Use License Agreement", "Authorization Agreement", "Open Source Code License" or other forms through attachments to this agreement, packaging in specific folders of this software installation package, etc. The relevant agreements or other documents presented in various forms mentioned above shall constitute an integral part of this agreement and shall have the same legal effect as this agreement. Users shall comply with these requirements. If any user fails to comply with these requirements, the third party or national authority may file a lawsuit, fine or take other sanctions against the user, and request the assistance of DanuTech Europe Kft. The user shall bear legal responsibility on his (her) own.

10. The voice recorder service policy shall be subject to official channels and DanuTech Europe Kft. shall have the rights for final interpretation.

11. DanuTech Europe Kft. shall not be liable for any legal consequences related to the sale of the product and the use of the product by the user for any violation of the manufacturer's/customer's specifications and relevant legislation, in particular the legal consequences related to the use of the product by persons under the age of 16.

12. DanuTech Europe Kft. shall not be liable for any infringements caused by the use of the product by the user, including but not limited to infringements of the rights relating to personality of third parties.

## Precautions:

1. The operating system only supports official upgrades. Please refer to the latest features. If users use unofficial systems themselves, they shall be responsible for security risks and losses accordingly. (Possible risks include information eavesdropping, etc.)
2. There is a risk of explosion if the product uses a wrong type of battery.
3. Please be sure to dispose of and recycle waste batteries in accordance with relevant laws and regulations.
4. Please take particular care not to infringe the rights of others, including but not limited to the rights relating to personality of third parties, when using the product.

## Waste recycling tips

In order to better protect our planet, when the user no longer uses the product or when the service life of the product ends, please comply with the relevant national laws and regulations on the recycling of waste electronic products and hand them over to local manufacturers with national certified recycling qualifications for recycling.

Please make sure that all information, data and personal data about the device are deleted before you deliver the product. DanuTech Europe Kft. is not responsible for any information, data or personal data on.

Furthermore, please note that pursuant to Section 7 (3) of Government Decree No. 197/2014 (VIII.1.) on waste management activities related to electrical and electronic equipment, the manufacturer shall inform consumers in Hungarian that

- the harmful effects of hazardous substances contained in electrical and electronic equipment on the environment and human health if they are not used and operated in accordance with the relevant environmental regulations,
- whether the electrical and electronic equipment contains components which, if they became waste, would be classified as hazardous waste,
- electrical and electronic equipment which has become waste must be collected separately and cannot be placed in the same collection container with municipal waste or disposed of as municipal waste,
- the figure below conveys the meaning that waste electrical and electronic equipment must be collected separately,

- the type of battery or accumulator contained in the electrical or electronic equipment and how it can be safely removed from the electrical or electronic equipment,
- the used and waste electrical and electronic equipment may be handed over free of charge at the point of supply or to any other distributor who sells electrical and electronic equipment which is identical in nature and function to the used and waste electrical and electronic equipment,
- the role of its activities in the re-use, preparation for re-use, and reduction, recovery and other forms of recycling of WEEE; and bears the costs incurred in connection with the take-back, take-over, collection and treatment and undertakes to bear the costs.
